

Multiple Intelligences Product Grid

This *product grid* categorizes different products under separate headings according to research from Howard Gardner's multiple-intelligences theory. Many are listed in more than one column and would look different according to which approach is taken by the student. These groupings appeal to student interests and strengths. This increases their involvement and the quality of the final product and makes it easier to determine that students have completed tasks that are measurable and demonstrable.

Linguistic	Logical / Mathematical	Spatial	Bodily / Kinesthetic	Musical	Interpersonal	Intrapersonal	Naturalist
